The Prez Sez ...

Hello Philmont,

I hope this Blurb finds everyone well. I'm sorry I missed last meeting I had a pretty bad cold. I heard the meeting went well and thanks to everyone who filled in for me.

Field day is soon approaching, looking at the calendar it will be here before we know it. I hope everyone has a chance to come out and play. The bands will be OPEN I'm told...So let's pray to the sun God for good weather and good propagation.

During field day we hope to have a few fun activities set up at the GOTA station. So stay tuned. At this meeting in the rear of the room we hope to have our DEN clinic, which helps everyone. Jim AJ3DI and Ron NY3J are there to answer some of your questions. Feel free to join in and have FUN, that's the name of the game.

Remember to look for HF events on ARRL and many other websites to make the most out of your radio time. You don't know how well you can do unless you TRY.

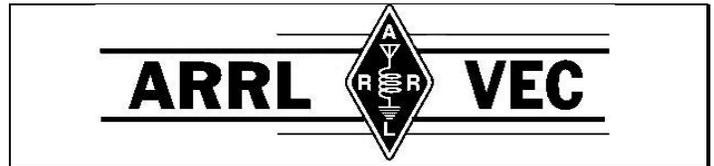

If anyone has an ideas please send me an email at nc3u@arrl.net or at nc3u@verizon.net.

Don't forget that Phil-Mont has a Yahoo mailing list. This is one of the best ways to get some up to date news on things going on at the club. Look up

philmontmobileradioclub in the Yahoo list and you will find us.

I hope to see everyone at a meeting and have the opportunity to shake your hand.

73, Sal NC3U

Thursday evening session is on the 25th this month.

As always, many thanks to our VE team!

Phil-Mont Birthdays & Tidbytes

MAY BIRTHDAYS

05 Paul Policarpo - N3PP
Patrick Taylor - W3HVG

07 Bob Swayne - K3NIE

15 Doug Crompton - WA3DSP
17 Herb Scott - N3OLK

28 Peggy Kaufmann - KB3DID
29 Maggie Leber - K3XS
30 Bill Chedeville - W3GQD
31 Joyce Mitchell - (XYL KC3CEW)

11 FAMILY MEMBERS
3 YOUTH MEMBERS
1 HONORARY MEMBER

Mother's Day: Founding by Anna Jarvis

The official Mother's Day holiday arose in the 1900s as a result of the efforts of Anna Jarvis, daughter of Ann Reeves Jarvis. Following her mother's 1905 death, Anna Jarvis conceived of Mother's Day as a way of honoring the sacrifices mothers made for their children. After gaining financial backing from a Philadelphia department store owner named John Wanamaker, in May 1908 she organized the first official Mother's Day celebration at a Methodist church in Grafton, West [Virginia](#). That same day also saw thousands of people attend a Mother's Day event at one of Wanamaker's retail stores in Philadelphia.

Following the success of her first Mother's Day, Jarvis—who remained unmarried and childless her whole life—resolved to see her holiday added to the national calendar. Arguing that American holidays were biased toward male achievements, she started a massive letter writing campaign to newspapers and prominent politicians urging the adoption of a special day honoring motherhood. By 1912 many states, towns and churches had adopted Mother's Day as an annual holiday, and Jarvis had established the Mother's Day International Association to help promote her cause. Her persistence paid off in 1914 when President [Woodrow Wilson](#) signed a measure officially establishing the second Sunday in May as Mother's Day.

Anna Jarvis had originally conceived of Mother's Day as a day of personal celebration between mothers and families. Her version of the day involved wearing a white carnation as a badge and visiting one's mother or attending church services. But once Mother's Day became a national holiday, it was not long before florists, card companies and other merchants capitalized on its popularity.

While Jarvis had initially worked with the floral industry to help raise Mother's Day's profile, by 1920 she had become disgusted with how the holiday had been commercialized. She outwardly denounced the transformation and urged people to stop buying Mother's Day flowers, cards and candies. Jarvis eventually resorted to an open campaign against Mother's Day profiteers, speaking out against confectioners, florists and even charities. She also launched countless lawsuits against groups that had used the name "Mother's Day," eventually spending most of her personal wealth in legal fees. By the time of her death in 1948 Jarvis had disowned the holiday altogether, and even actively lobbied the government to see it removed from the American calendar.

What is ARRL Field Day?

ARRL Field Day is the single most popular on-the-air event held annually in the US and Canada. On the fourth weekend of June of each year, more than 35,000 radio amateurs gather with their clubs, groups or simply with friends to operate from remote locations.

Field Day is a picnic, a campout, practice for emergencies, an informal contest and, most of all, FUN!

It is a time where many aspects of Amateur Radio come together to highlight our many roles. While some will treat it as a contest, other groups use the opportunity to practice their emergency response capabilities. It is an excellent opportunity to demonstrate Amateur Radio to the organizations that Amateur Radio might serve in an emergency, as well as the general public. For many clubs, ARRL Field Day is one of the highlights of their annual calendar.

The contest part is simply to contact as many other stations as possible and to learn to operate our radio gear in abnormal situations and less than optimal conditions.

We use these same skills when we help with events such as marathons and bike-a-thons; fundraisers such as walk-a-thons; celebrations such as parades; and exhibits at fairs, malls and museums — these are all large, preplanned, non-emergency activities.

But despite the development of very complex, modern communications systems — or maybe because they ARE so complex — ham radio has been called into action again and again to provide communications in crises when it really matters. Amateur Radio people (also called “hams”) are well known for our communications support in real disaster and post-disaster situations.

What is the ARRL?

The American Radio Relay League is the national association for Amateur Radio in the USA, representing over 171,000 FCC-licensed Amateurs. The ARRL is the primary source of information about what is going on in ham radio. It provides books, news, support and information for individuals and clubs, special events, continuing education classes and other benefits for its members.

What is Amateur Radio

Often called “ham radio,” the Amateur Radio Service has been around for a century. In that time, it’s grown into a worldwide community of licensed operators using the airwaves with every conceivable means of communications technology. Its people range in age from youngsters to grandparents. Even rocket scientists and a rock star or two are in the ham ranks. Most, however, are just normal folks like you and me who enjoy learning and being able to transmit voice, data and pictures through the air to unusual places, both near and far, without depending on commercial systems.

The Amateur Radio frequencies are the last remaining place in the usable radio spectrum where you as an individual can develop and experiment with wireless communications. Hams not only can make and modify their equipment, but can create whole new ways to do things.
